BUILD AS YOU GROW

You don't have to buy everything upfront. Start with what your business needs today and add services, pages and functionality as your business grows.

WEBSITE ADD-ONS

ADD-ON	PRICE	WHAT IT INCLUDES
Additional Website Page	R750	Add another professionally designed page to your website.
Contact / Enquiry Form	R500	Add a form for customers to send enquiries through your website.
WhatsApp Integration	R350	Add a WhatsApp contact option so customers can reach your business easily.
Professional Email Setup	R350	Configure your business email and required website/domain settings.
Domain Connection	R300	Connect your existing domain to your website and configure the required settings.
Hosting / Deployment Setup	R350	Deploy your website and connect it to your hosting environment.
Basic SEO Setup	R750	Set up essential page titles, descriptions and basic search visibility settings.
Google Business Profile Setup	R500	Set up or assist with the essential configuration of your Google Business Profile.
Website Maintenance	From R500 / month	Ongoing updates, small content changes and basic website support.
Custom Functionality	Quoted	For features or integrations that fall outside the standard add-ons.

These are add-ons that can be attached to a website project when needed. Third-party provider costs are separate unless explicitly stated.

Oatle Technologies

GROW. MULTIPLY. SUCCEED.

ADDITIONAL SERVICES

Services for businesses that already have a website or need specialist guidance beyond a standard website package. Pricing is currently quoted according to scope.

SERVICE	PRICE	WHAT IT CAN INCLUDE
Website Audit & Consultation	Quoted	Review of an existing website covering design, UX, mobile usability, content clarity, navigation, conversion concerns and technical observations.
Existing Website SEO	Quoted	SEO work for an existing website, including assessment and optimisation of search visibility without requiring a website rebuild.
SEO Audit	Quoted	Assessment of an existing website's search visibility, technical setup, on-page SEO and opportunities for improvement.
SEO Optimisation	Quoted	Implementation of agreed SEO improvements to an existing website based on the audit and project scope.
Ongoing SEO	Quoted	Continued SEO improvement, monitoring and optimisation based on an agreed scope and cadence.

IMPORTANT

Third-party costs such as domain registration, hosting, email providers and other external services are normally paid by the client directly. Oatle Technologies charges separately for setup or configuration where applicable.

Custom technology solutions require discovery before a final quote. The final price depends on the project's scope, functionality, integrations and technical requirements.

Services marked "Quoted" are scoped according to the client's requirements rather than being fixed-price packages.
